

MULTIPLE TRANSPORTATION MEANS FOR THE CREW

The vessels are equipped with helicopter deck, man-riding crane, heave compensated gangway, and boat landing providing full flexibility.

INTRODUCING

THE SAFER CREW CHANGE FACILITY

HIGHER LEVEL OF ISOLATION, SAFER CREW CHANGES

In response to client requests, Telford Offshore, in consultancy with International SOS (ISOS), has developed a plan for using its multi-purpose offshore accommodation vessels as an offshore isolation facility.

REDUCED RISK

Fully Isolated facility reduces the risk of COVID-19 spreading to confined offshore environment.

OFFSHORE ISOLATION

7, 14 or 21 days of isolation based on client specification.

FULL ISOS SUPPORT

Supported fully by ISOS with ISOS doctors onboard 24 hours with wider expertise of remote global assistance.

EFFICIENT, FLEXIBLE, SAFE

Can be used as a fixed offshore isolation hub at safe anchorage, in port or at a permanent tactical position offshore. It can also be used as a shuttle between offshore facilities.
